

# Health and Safety in Residential Care Homes

Health and Safety in Residential care Homes/Centres

## Overview

This course is designed to give staff of residential care homes an awareness of Health and Safety regulations and Law. It will also provide employees with the requisite knowledge, or refresher training, needed in order to provide a safe working environment within your organisation. This includes an understanding of legal responsibilities, accident prevention and an overview of some of key areas of workplace health and safety.

## Course content:

The following topics are covered in this course.

- Health and Safety at Work Act
- Legal Duties – duties of employers and employees
- Health, Safety and Welfare of residents
- Management of Health and Safety
- Incidents and Accidents - Riddor
- Occupational Health and Water Temperatures
- General Working Environment and Manual Handling
- Electrical, Kitchen, Laundry, Outdoor Health and Safety

## Entry Requirements:

Everyone in the workplace is required to take sufficient & appropriate health & safety training. HSE guidance states that everyone who works for you and who could be harmed needs to know how to work safely and without risks to health. This applies to all industries of work.

## Assessment:

We can deliver this course on your premises, reducing costs in respect of additional time out and travelling. Our trainer will carry out on going assessments.

## Qualification

On completion of the course. All delegates will receive Certificate of Attendance

## Duration of course

Depending on module
